## Search Using Map: Tokyo Wildlife AR Illustrated Guide

From close at hand to further afield, Tokyo is home to many different natural environments and living things. Hold the tablet over the map to search for what sorts of wildlife live in the area.

### How to Use

#### ① Select mode.

**Search Mode**

Look for wildlife in a certain area.  
Search any part of the map of the Tokyo.

**Mission Mode**

Search for wildlife with specific characteristics on the map.

#### ② Find wildlife on the map!

Hold the tablet over the map to display icons for the wildlife living there.

#### “List / Mission” button

##### ▼ Search Mode

##### ▲ Mission Mode

#### Basic operations screen (AR)

#### “Investigate” button

In Search Mode, you can check all wildlife by species. In Mission Mode, you can check the details of the mission.

Moving an icon to the middle of your screen and pressing the “しらべる (investigate)” button will display information about that wildlife.
